

 **PTIONS**[®]
BY BATESVILLE

2011 OPTIONS[®] CREMATION CATALOG

Families who choose cremation should also consider *honoring the life* of the person who died with a funeral or memorial ceremony. For thousands of years, funerals have been a means of *expressing our beliefs, thoughts and feelings* about the death of someone we love. Funerals help us acknowledge that someone we love has died.

They allow us to say "hello" on the pathway to goodbye. They provide a time and place for us to talk about the life and death of the person who died. Funerals are not about "closure," they are about a good "beginning." And because *funerals bring people together*, they encourage people to support each other in their grief.

Alan D. Wolfelt Ph.D, C.T.

The Four Steps to the Commemoration of a Lifetime...

Your loved one left a legacy, which could be described through thoughts, feelings and emotions. Throughout their life special mementos marked their passions and interests which can be captured in their final farewell.

The choices can seem overwhelming, but there are really only four key steps to making cremation arrangements. Our staff is available to provide whatever guidance and support you need.

Step 1 Unlimited Tribute Possibilities

Step 2 Container Selections

Step 3 Memorial Selections

Step 4 Personalization Options

Step 1: Unlimited Tribute Possibilities

A service or gathering can help pay tribute to a life well lived. It can be as simple or elaborate as you wish, and the experience can be as unique as the individual being honored.

Cap Panels

Available personalization from hundreds of standard panel options or your own design

LifeSymbols[®]
CORNERS

Traditional Gathering

Many families find comfort in a gathering, viewing and memorial service prior to cremation, followed by a committal or scattering ceremony, or home display in a permanent memorial urn.

Memorial Gathering

A popular tribute includes a gathering with a permanent memorial urn as the centerpiece in place of a more traditional viewing.

Private Farewell

Still others prefer a private viewing before the cremation, followed by the commemorative tribute of your choice.

Committal, Interment or Scattering Ceremony

For those who prefer simplicity, a private viewing prior to the cremation is available. There are many cremation choices available for families to honor the loved one including niche interment, scattering and home placement.

There is no "standard" cremation, so you are free to combine one or more of these elements to create an event that truly reflects the spirit and memory of your loved one.

Step 2: Container Selections

Cremation Containers

The selection of a container is an important and necessary step. Your choice of service will help determine the right cremation container. Our staff will help you through the various container options available from the most basic to the most elaborate. Beautiful, detailed cremation caskets suitable for a traditional memorial service, to the most basic container for transport are available in our extensive container line.

Step 3: Memorial Selections

Memorials

Another important and necessary step is the selection of a memorial container, sometimes called an urn. This will become the final resting place of your loved one.

Your selection will be guided by personal preference and how the urn will be used, whether as a lasting memorial in the home or garden, a cemetery plot or niche or for scattering in a meaningful location.

Keepsakes & Jewelry

Many families choose to create lasting memories by sharing cremated remains among family members and friends. These individual keepsakes can play an important part in healing and allow you to create individual tributes to cherish.

Step 4: Personalization Options

From simple engraving to symbolic tributes, a number of options are available to help you honor the life of your loved one while creating meaningful memories. Refer to pages 65-74 for more information on personalization options.

- LifeSymbols® corners can easily attach to selected casket corners and urns. A selection of corners are available to represent the hobbies or interests of your loved one.
- Nearly all of our memorial containers have an engraving option, whether it be standard designs, verses, names, dates or custom engraving.
- Solid bronze appliqués reflecting a variety of themes can be added to most sheet bronze and hardwood urns. Solid brass service medallions are also available.
- Trigard® bronze appliqués are available in three different colors, three different border options and various orientations that offer unsurpassed memorialization for urns.
- With every Options® urn, casket or cremation container* purchased, a tree seedling will be planted free of charge in selected woodlands as a tribute to the deceased. The Living Memorial® tree planting program is made possible through a special agreement with the United States Department of Agriculture's Forest Service and participating funeral homes.

*The Living Memorial Program is not available with minimum cardboard container.

Container Selections

Cremation caskets and containers are chosen when a viewing is desired, whether as part of a memorial service for a gathering of family and friends, or as a private farewell prior to the cremation.

Biodegradable Collection

In gardens, at sea, a favorite hole at the golf course, the cottage at the lake, or a special destination, biodegradable urns from Options provide safe transport and attractive designs for a truly meaningful ceremony.

a | Spíritree

Biodegradable Urn - #235703

Measures 12" w x 6" d x 15" h

Weight - 7 lb.

Opening - 1½" diameter

The Spíritree is designed to function as a biodegradable two-piece urn that promotes the growth of a tree into a living memorial. The top shell, which features small perforations that promote water absorption, is made of an inert, semi-porous ceramic, and is designed to degrade after long-term exposure to the elements. The organic bottom is composed of clay, peatmoss, sawdust, post-consumer recycled paper, and other biodegradable materials which will also decompose over time.

The Spíritree is designed to facilitate the growth of a tree. The process begins with the selection of a plot of ground that will promote healthy and sustained growth. The Spíritree will accommodate the use of seeds, a small sapling or a small plant (not included).

** Tree is not included*

The planting process begins by planting the sapling, seed or plant selected into the ground. Then you will carefully place the organic bottom over the tree or plant allowing the sapling or plant to go through the central opening. Then spread the cremated remains into the organic base in a circular pattern around the central protrusion.

Carefully place the ceramic cover over the organic base allowing the sapling or plant to go through the central protrusion. Water the sapling or plant and cover the center of the Spíritree with a small amount of soil.

Visit often to care for the young Spíritree. The ceramic top will remain until the Spíritree has grown large enough to break it.

Options® by Batesville warrants, for a period of 60 days after purchase, that the Spíritree will be free from defects in manufacturing or materials. There are no other warranties, express or implied, with respect to the Spíritree, and without limiting the foregoing OPTIONS BY BATESVILLE HEREBY DISCLAIMS THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Options by Batesville's sole obligation and maximum liability in the event of a breach of warranty shall be the replacement of the defective Spíritree with another Spíritree. This warranty will not apply to, and Options by Batesville will have no liability or responsibility in the event of, damage to or disintegration of the Spíritree resulting from improper care, storage or handling after purchase. The Spíritree is a fragile product and must be handled with care to avoid breakage. The Spíritree must be stored in the original packaging prior to use in order to avoid premature degrading of its natural base materials.

Reflections™ Series Biodegradable Scattering Urns

b | Floral Reflections™

Biodegradable Scattering Urn - #100089
Measures 21¼" diameter x 4½" deep

c | Windward Reflections™

Biodegradable Scattering Urn - #185031
Measures 21¼" diameter x 4½" deep

d | Spiritual Reflections™

Biodegradable Scattering Urn - #240070
Measures 21¼" diameter x 4½" deep

- Cast from original artwork
- Designed specifically for scattering in water
- Handmade from unbleached pressed cotton (biodegradable)*
- Biodegradable bag included and recommended until scattering ceremony
- Lid features bas-relief design
- Bowl-shaped bottom holds cremated remains
- Floats for one to five minutes before descending into water†

* The Reflections™ Scattering and Garden urns are designed to break down in water. Thus, it is imperative that the urn remain completely dry until it is placed in the water for the scattering ceremony. Additionally, because of the delicate nature of the pressed cotton material, the urn must be handled gently to prevent rips or tears. Do not ship cremated remains within this product. Cremated remains should be placed in the biodegradable bag.

† Floating times may vary.

Scattering Series Memorials

Scattering is naturally beautiful. With the Scattering Series, it's naturally easy, too. Lightweight, easy to open, effortless to hold and use — each of these memorials was specially designed to meet the needs of a unique and personal ceremony.

a | Liberty™ Cherry

Scattering Series Memorial - #100100
Measures 8¾" w x 5½" d x 10⅝" h

- Specifically designed for scattering
- Crafted of cherry with hand-rubbed finish
- Ideal as a permanent memorial
- Personalization available for an additional charge (on top or sides only)

b

b | Monterey™ Maple

Scattering Series Memorial - #100099
Measures 8¼" w x 3⅜" d x 10⅜" h

- Specifically designed for scattering and personalization
- Sliding top with finger groove for easy opening
- Crafted of maple with hand-rubbed honey color finish
- Personalization available for an additional charge (on sides only)

c

c | Slate Gray

Scattering Series Memorial - #100098
Measures 8¼" w x 3¾" d x 10½" h

- Specifically designed for scattering
- Particle board construction with gray vinyl cover

- Friction-fit lid engineered to fit securely, yet remove easily

- Spring-loaded, retractable metal handle on bottom
- Handle combines easy grip with subtle design

- Recessed plastic handle on bottom offers secure, comfortable grip

- Tight-fit lid opens smoothly and stays in place at any angle, or can be removed

- Durable plastic side latches to fasten lid securely and allow easy opening

Trigard® Memorial Appliqués

The memorial appliqué provides a unique and timeless way to celebrate the life of someone you love, using a favorite photograph that exemplifies their spirit and personality.

Your photograph will be engraved on a ¼" bronze or aluminum sheet in stunning 3-D color relief, sealed with the Trigard Durasheen™ finish and then affixed to the urn of your choice (sold separately). The result is a beautiful, lasting memorial suitable for home or niche placement.

Step #1 – Select the photo (see instructions on pg. 70)

Step #2 – Select the urn

b

c | Tender Moments™

Keepsake - #240553

Measures 7" w x 3½" d x 6½" h

- Cast from original artwork
- Lucite™ acrylic used for highest optical quality

c

Personalization Options

Personalization turns an urn into a permanent, personal memorial. Options® by Batesville offers a variety of choices to help meet the needs and desires of individuals. Select one of our personalization offerings or combine several to create a unique and meaningful tribute to a loved one.

About Personalization by Options®

Engraved Names, Dates and Text

Names, dates and text may be engraved on any sheet bronze, hardwood or marble urn. Additionally, names and dates may be engraved on the front or sides of several sheet bronze urns or on the bottom bronze plates or bases of many statuary urns.

LifeSymbols® Designs

Added to the corners of the casket, placed in an alcove or an urn, displayed on a memory table or placed on a keepsake plaque, LifeSymbols designs are a touching expression of the spirit, personality and interests of a loved one. These popular enhancements are also used as individual keepsakes for family and friends. See pages 68-69 in this catalog for the complete selection of designs.

Trigard® Memorial Appliqués

Trigard bronze appliqués are available in three different colors, three different border options and various orientations that offer unsurpassed memorialization for urns. Reference pages 45 and 46 for more information.

Appliqués and Medallions

Solid bronze appliqués reflecting a variety of themes may be added to most sheet bronze and hardwood urns. Solid brass service medallions are also available. See page 71 in this catalog for the complete selection of appliqués and medallions.

Standard Engraved Designs and Verses

Standard engraved designs by Options reflect our most commonly requested images. Standard engravings have also been expanded to include verses as well as designs. The complete selection of standard engraved designs and verses can be found on pages 72-74.

Non-Standard Engraved Designs

To request a theme or image that is not shown in the catalog (for example, a specific type of flower or sporting activity), contact the Options Customer Service Center for assistance. Our personalization specialists can help find a design that meets your needs.

- Extra time is required to fulfill non-standard design orders

Custom Engraved Designs

Families may choose to contribute a meaningful design or photograph to be engraved on an urn. Send your artwork or photograph to the Options Customer Service Center to create a truly personal memorial.

- Engravings from photos available only on sheet bronze urns
- Quality of engraving will vary depending on the quality of the photograph
- Extra time is required to fulfill custom design orders

LifeSymbols®
CORNERS

Engraving Instructions

Engraved designs, verses and/or names and dates will be adjusted to fit the size and shape of the product being engraved.

Product size will determine the amount of engraving each product can accommodate. To determine whether a desired combination of engravings will fit on a specific product, please consult a Personalization Specialist in the Options Customer Service Center.

Separate charges apply for each personalization placement and each type of personalization.

All engravings—including names, dates, text, designs and photographs—on urns in this catalog are shown as examples only. All personalization is available for an additional charge, except where noted. Specify personalization selections when ordering.
Note: Options cannot engrave or re-engrave an urn after it has been delivered to a family.

Appliqués — Trigard

STEP 1

Choosing a photo

When selecting a photo to be engraved, keep in mind some simple rules to guarantee the finest duplication possible. Though poor photos can be manipulated to some degree, the following rules will help you avoid unsatisfactory results.

1. Whenever possible, choose a photo that is sharp and in focus. Blurry or out-of-focus pictures will result in a poor reproduction.
2. Avoid washed out photos with little or no contrast. Photos with high contrast will provide the best results.
3. Reproduction is done with digital technology, so digital files are the preferred media.

Tips for scanning photos

Correct scanning is integral to the quality of your finished memorial. Read these tips before you get started.

1. Always scan the image in color mode. Color images will create more contrast than black and white images.
2. Crop out unnecessary areas of the photo to reduce your file size. This is especially recommended if you will be providing your photo via email.
3. Once the area of the photo is selected, you can adjust your size and the resolution of your photo. Select a resolution between 200 dpi and 300 dpi. Adjust the size (scale) of your photo at this time, if necessary. A minimum size of 2" x 3" is sufficient, in either horizontal or vertical format.
4. If possible, save the photo as a .tif file. Other formats can be used, but .tif files are preferred. If saving in something other than a .tif format, please call Options Customer Service to see which formats are acceptable.

Sending your scanned photo

Once your photo is scanned, you can send it in a variety of ways. To save time and expense, email is the preferred method. Options® e-mail address is urns@batesville.com. You can also copy the file to disk or burn it to CD and mail to Options at: Attn.: Customer Service, One Batesville Blvd., Batesville IN, 47006. If you have questions, please call Options Customer Service at 1-800-444-5944.

#183566

Butterfly

As you danced in the light with joy,
love lifted you. As you brushed
against this world so gently, you
lifted us.

— T.C. Ring

Butterfly Verse
#183573

Until Then

We've shared our lives these many years. You've
held my hand; you've held my heart. So many
blessings, so few tears — yet for a moment,
we must part. The memories you've given me
are times I've shared with my best friend.
I'll hold them, Love. Right here they'll be.
Until we share our lives again.

— T.C. Ring

Until Then (original poetry)
#183569

Footprints in the Sand

Lord, You said that once I decided to follow
You, we would walk side by side through life.
But when I needed You most, I saw only one set
of footprints in the sand. The Lord replied,
"I love you and I would never leave you. During
your times of trial and suffering, when you see only
one set of footprints, it was then that I carried you."

The Living Memorial Program

Batesville's Living Memorial Program is a unique and special way to honor the memory of a loved one. When you select an Options® by Batesville cremation urn, casket, container* or keepsake item, we arrange for a tree seedling to be planted in a national forest or woodland as a living tribute and memorial to the deceased.

More than just a majestic memorial, these trees shelter wildlife, reduce water and wind erosion and contribute to the purity of the air we breathe, helping to improve the environment for generations to come.

The Living Memorial program is funded entirely by Batesville and executed in cooperation with the U.S. Forest Service, The Canadian Forestry Association, The Grand River Conservation Foundation, and other international organizations. Planting locations are determined by the individual agencies, based on the greatest need in that region.

*Living Memorial Program not available with the minimum cardboard container

Living Memorial trees remove 209,000 tons of carbon dioxide (CO²) annually offsetting the CO² emissions of 8,700 families.

12

More than 12 million trees have been planted through the Living Memorial program since 1976.

Batesville's Living Memorial Program is the largest private reforestation program in North America.

The Living Memorial®  Program
