## Thumbies for all ages and stages

### Creating Keepsakes

Meadow Hill helps you create keepsakes of the people you love and the times you want to remember. Three-dimensional Thumbies are crafted from simple ink fingerprints, footprints or handprints using the time honored process of lost wax casting. The finished pieces are ever so touchable, making real our memories at each stage of life's cycle.

### Children's prints

There are few things as irresistible as keepsakes that capture the tiny handprints and footprints of newborns and toddlers.

### Youth and Young Adults

The fingerprints of young people are clear, the ridges well defined. Keepsakes created at this stage help parents deal with the empty nest.

### Middle Age

As we age, fine lines begin to appear across the surface of our fingerprints, making our prints even more distinctive.

### The Elderly

As our loved ones near the end of life, the ridges of their prints grow fainter and the "life" lines more pronounced. We imagine their prints telling the stories of their lives.

### The Deceased

Nationwide, Meadow Hill has a network of funeral homes that assist families in taking final prints of their loved ones and placing orders. Those taking prints at earlier stages of life can work through this network or visit our website, [www.meadowhillco.com](http://www.meadowhillco.com).

## Creating Keepsakes

Thumbies combine modern scanning technology with the ancient art of lost wax casting.

## Sizes and Shapes

From the best of the prints sent to Meadow Hill, our artisans select the area of the print that carries the most definition to create a wide range of products. Please note the sizes listed in the left column of each product category.

## Custom Work

Each Thumbie is a custom piece. If you would like to create something altogether different, please contact us and we will put our designers to work. Price quotes will be provided before any work begins.

## Face Styles

Thumbies charms are available with four different face designs: full fingerprint (print extends edge to edge), rimmed fingerprint (polished rim frames print), handprint, and footprint. Any of these designs can be applied to each of our charm designs.

## Prints from the past

Meadow Hill can work with prints from a variety of other sources, such as birth records, military papers, school projects, firearm registrations, employment cards, etc.
